

Chronic Illness Symposium 2026 Sponsorship Opportunities

The Center for Chronic Illness (CCI) promotes well-being and decreases isolation for those impacted by ongoing health challenges through support and education. CCI provides programming for patients and their loved ones impacted by autoimmune diseases, rare diseases, invisible illnesses, physical disabilities, and chronic pain conditions as well as continuing education for healthcare providers working with the chronic illness population. CCI programs serve individuals from all 50 states with over 150 different diagnoses.

In honor of our 10-year anniversary, the Center for Chronic Illness (CCI) is proud to launch the Chronic Illness Symposium, a two-day virtual conference taking place April 17–18, 2026. This unique event will bring together patients, caregivers, and healthcare providers to build community, foster connection, and provide accessible, evidence-based health education focused on chronic illness.

Sponsorship Levels

Sponsoring the Symposium is a powerful way to align your company with a mission-driven event that brings together individuals living with chronic illness, caregivers, and healthcare providers. Your sponsorship will support program development, an accessible conference platform, and participation for medically vulnerable and low-income individuals. This partnership will also position your company as a leader in **health equity, compassionate care, and chronic illness management.**
